### Aquascape 2/4 Stone Aerator

\$44.98

Every process that happens in the pond is dependant on oxygen. This is especially important at night when plants are not converting fish-created CO<sub>2</sub> into oxygen. Dissolved oxygen levels are also generally lower in warmer water temperatures. Pond aerators oxygenate your pond, helping create a more stable environment, resulting in healthier fish and plants.

- Promotes a cleaner environment by providing oxygen to beneficial bacteria
- Helps to de-gas CO<sub>2</sub> at night
- Increases dissolved oxygen rates crucial to healthy fish
- Helps circulate pond water
- Can be used in winter to help keep the pond from completely freezing over

#### Performance Chart

	2-Stone	4-Stone
Air Flow (cu.ft/hr)	7.5	19
Pond Size	500 gallons	1600 gallons
Watts	5	12
Outlet	2 outlets	4 outlets
